"Over 1500 points of contact with those impacted by sexual violence."*

A word from Kyle A. Bair, Executive Director:

2018 was a truly defining and resilient year for SASC: The Center at 909. After experiencing a devastating fire in March, we took the opportunity to redefine the Center with a beautiful and enhanced new office space and services. The loss of our former space and supplies was not as great as the generosity of those who volunteered to help make our new center the beautiful, comfortable, and warm space that is it today.

We are looking forward to continuing to provide services within our community in 2019 and beyond!

In 2018 The Center at 909 experienced over:

- 35 client social media contacts
- 70 office appointments
- 100 client emails
- 210 hospital hours
- 230 new clients
- 330 Family Center counseling sessions
- 380 client texts
- 510 crisis & client calls
- 710 hotline hours
- 950 returning client units of service**
- 1400 units of service**
- 1500 points of contact with clients*

Goals Going Forward...

- Completion of exam room where medical forensic examinations (rape kits) will be performed on site
- New quarterly trainings for our community & organizations will be made available in our new board room
- Additional support group sessions
- Expansion of services for those who are survivors of human trafficking & clients within the Disability, Spanish-Speaking, Mental Health, & People of Color Communities.
- Completion of the law enforcement interview room

*Points of contact include: hotline, hospital response, office calls, in-person disclosures, office visits, emails, social media messages, texts

**Units of service include any services provided by the center to a client (transportation, hospital accompaniment, criminal justice support, etc.)

***Legal advocacy includes information/accompaniment for temporary protection orders (TPOs), legal referrals, Georgia Code information, etc.
